

## **HISTOPATHOLOGY/CYTOPATHOLOGY LABORATORY**

The Histopathology Laboratory receives specimens for diagnostic interpretation from Safdarjang Hospital. The laboratory is well equipped with state-of-art infrastructure facilities including a grossing station, automatic tissue processor, automatic staining station and cryostat for frozen sections. Apart from the routine Haematoxylin & Eosin stains, the staff are well-trained in both histochemical and immunohistochemical procedures thus providing ancillary support in diagnosis. The laboratory provides diagnostic services in specialized fields of pathology like oncopathology, dermatopathology, neuropathology, renal Pathology and hematolymphoid malignancies. The facilities also include data entry and retrieval for future use.

The cytopathology laboratory is well-equipped with facilities for aspiration of superficial palpable lesions on an outpatient basis. Routine Giemsa stains and special histochemical stains are performed for diagnostics. Facilities are also available for monolayered preparation and processing of fluids for cell block and centrifuged smears.

**STAFF:** Dr. Sujala Kapur, Dr. Usha Agrawal, Dr. Anju Bansal,  
Dr. Purnima Paliwal, Dr. Avninder Pal Singh, Dr. Bineeta Sinha,
